GOLD OR SILVER INK FOR WRITING UTENSILS

Veröffentlichungsnr. (Sek.) JP59170167
Veröffentlichungsdatum : 1984-09-26
Erfinder : WAKI MIKIO; others: 01
Anmelder : DAITOU KASEI KOGYO KK; others: 02
Veröffentlichungsnummer : JP59170167
Aktenzeichen:(EPIDOS-INPADOC-normiert) JP19830044659 19830316
Prioritätsaktenzeichen:(EPIDOS-INPADOC-normiert)
Klassifikationssymbol (IPC) : C09D11/16
Klassifikationssymbol (EC) :
Korrespondierende Patentschriften

Bibliographische Daten

PURPOSE:The titled ink, obtained by incorporating a metal powder pigment pretreated with methylhydrogenpolysiloxane and an amino-modified silicone oil on the surface thereof uniformly in an organic solvent, and having improved dispersibility of gold or silver dust pigment and further rust preventing and anticorrosive properties of the pigment.

CONSTITUTION:An ink obtained by incorporating a metal powder pigment, gold or silver dust, pretreated with methylhydrogenpolysiloxane and an amino-modified silicone oil on the surface thereof uniformly in an organic solvent, e.g. n-heptane or ethyl cellosolve.

EFFECT:The surface of the metal powder pigment protected with a film provides lustrous scripts.
